## SLI Opportunities

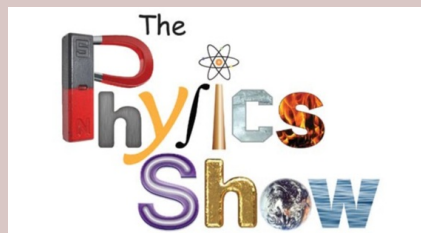

FOOTHILL COLLEGE  
SCIENCE LEARNING INSTITUTE

### Join the Internship Jumpstart!

Thur, Nov. 13  
12:15 - 1:15 PM  
Room 4203 & Zoom

Looking for an internship but not sure where to start? Join SLI Director Sophia Kim and a panel of current/former Foothill students for [Internship Jumpstart](#). Sophia will share practical tips and strategies for finding and applying to internships—including REUs (Research Experiences for Undergraduates) while students will discuss their own internship experiences and application journeys. The session will be recorded and posted here and on the [SLI YouTube channel](#).

### Help at the Annual Physics Show!

Sun. Dec. 14 - Dec. 18

The annual Physics Show—hosted by Foothill Physics instructors Frank Cascarano and David Marasco—is looking for Foothill students to help out this December! This is a paid position and a fun way to give back to the community while inspiring local Title I elementary and middle school students who attend the show.

# Foothill Opportunities

## Food & Hygiene Drive

Nov 4 - Dec 3

Drop-Offs: Owl's Nest, Room 2152

Help support students facing food insecurity and limited access to essential items. Donate non-perishable food and hygiene products to [our drive](#) and make a positive impact in our community!

PEOPLE OF COLOR

## Pause Pack: A Moment for You, Because You Matter

Nov. 5 - Nov. 24

9:00 AM - 3:00 PM

BIPOC Center, Room 2149

Create your own mini self-care kit to help you pause, reset, and find calm during busy days.

More Info

## Join the Pre-Vet Club

Are you an aspiring veterinarian or vet tech? The Pre-Veterinary Club is here to support undergrads interested in earning a DVM or higher! Connect with peers, gain resources, and explore the world of animal medicine together.

Interest Form

## Explore Biology Through Research: Enroll in BIOL 36AH

Wednesdays

2:00PM - 4:50PM

Curious about real lab research? BIOL 36AH is an experimental biology course that lets you conduct hands-on research while learning how scientists ask and answer questions. Perfect for students considering a STEM career or looking to boost transfer applications with research experience!

## Did You Miss the "More Human than AI" Presentation?

Did you miss last week's "More Human than AI" presentation hosted by the Foothill AI Learning Community? Don't worry, you can still catch the recording! The session offered valuable insights into how we can embrace artificial intelligence while staying grounded in what makes us human. It's a must watch for anyone interested in the balance between technology and humanity.

## External Opportunities

### How to Turn Curiosity into Clinical Research

Fri, Nov. 14  
5:00 PM  
Zoom

Join this [workshop](#) led by hematologist-oncologist Dr. Sarmen Sarkissian to learn how to transform your questions into real research and potential publications. You'll get a step-by-step breakdown of how to design beginner-friendly studies, find mentors, understand IRB/ethics, and write for publication. This session is packed with insider advice to help you stand out on your med school apps with research that actually matters.

Register

### Land a Paid Internship in Healthcare This Summer!

Fri, Nov. 14  
1:00 PM  
Zoom

Want hands-on experience in public health, clinical care, or health equity—and get paid for it? Join this [workshop](#) learn how Health Career Connection can place you with hospitals, clinics, and community orgs for a summer internship that builds hours, mentorship, and impact. Hear from HCC's founder and UC Berkeley professor Jeff Oxendine on how to craft a standout application and get real answers on eligibility, pay, and more.

Register

## Darrel Hess Community College Geography Scholarship

**Application Deadline: Sat, Nov. 15**

Planning to transfer as a Geography major? Apply for the [Darrel Hess Community College Geography Scholarship](#)! Two \$1,500 awards are available to students transferring from a 2-year college to a 4-year university to pursue Geography. Don't miss out on this nationally recognized opportunity to support your academic journey.

[Apply](#)

## CASSI: Paid Summer Research in Astrophysics

**Application Opens: Dec 2025**  
**Application Due: Jan 2026**

Dive into original astronomy research through the [Carnegie Astrophysics Summer Student Internship](#) (CASSI)—a 10-week paid internship for undergrads. You'll work closely with astronomers and engineers, build your research and communication skills, and become part of a vibrant scientific community. No prior research experience required—just curiosity, collaboration, and a drive to explore the universe!

[More Info](#)

## Explore Career Pathways with USDA APHIS

The [Animal and Plant Health Inspection Service](#) offers career “pathways” for students and recent graduates in various fields through the USDA Pathways Programs. These opportunities (internships and field experiences) are for undergraduate and graduate students in nonveterinary fields of study, veterinary medicine (focused on animal health or animal welfare), and plant health science.

**Stanford** | MEDICINE

## Hematology Research Internship at Stamford

**Application Deadline: Sat Jan. 31**

Dive into real biomedical research through [Stanford's Hematology Internship Program](#) (HIPS), where students join one of 30 faculty labs to explore cutting-edge topics in hematology and pediatrics. You'll take part in lectures, workshops, research seminars, and hands-on lab work with mentors who match your academic interests. The program wraps up with a poster symposium, giving you the chance to present your research and build skills for future STEM careers.

[Apply](#)

## Explore Research with NSF

**Application Deadline:** Jan. - March timeline

Looking to gain hands-on research experience and boost your STEM career?

The [NSF Research Experiences for](#)

[Undergraduates](#) (REU) program connects undergrads with paid [research projects](#) in science, engineering, and more at top institutions across the U.S. Work with experienced mentors, conduct real research, and get inspired—no matter your background!

[More Info](#)

## Explore Engineering Research at Stanford!

**Thurs, Jan. 22 - Sat, 24**  
**Stanford University**

Undergraduates interested in engineering and research are invited to apply for the

[Stanford Engineering Research Introduction](#)

[Organization](#) (SERIO) event this January at Stanford University. This free, conference-style program introduces students to cutting-edge research, offers opportunities to connect with faculty and industry leaders, and provides insight into graduate-level engineering.

[Apply](#)

**Stanford** | MEDICINE

## Stanford Clinical Summer Internship

**Application Deadline:** Mon. Feb 23, 2026

Explore the world of medicine through [Stanford's CSI programs](#), designed for students interested in healthcare. Choose between a two-week summer session (virtual or in-person) or a flexible 10-week Fall

Intensive, both offering hands-on learning, clinical exposure, and mentorship from Stanford faculty. If you're serious about a future in medicine, this is your chance to dive in and learn from the best.
